

IRPA Code of Ethics

These principles are intended to aid members of IRPA Associate Societies in maintaining a professional level of ethical conduct related to radiation protection. They are to be regarded as guidelines. Members of Societies may use them to determine the propriety of their conduct in all relationships in which they are exercising their professional expertise. Associate Societies are encouraged to adopt or incorporate them as appropriate. If there is reason to believe that a member has breached this Code of Ethics, the Society to which the member belongs is expected to investigate and take appropriate measures.

- 1 Members shall exercise their professional skill and judgement to the best of their ability and carry out their responsibilities with integrity.
- 2 Members shall not allow conflict of interest, management pressures or possible self-interest to compromise their professional judgement and advice. In particular members shall not compromise public welfare and safety in favour of an employer's interest.
- 3 Members shall not undertake any employment or consultation that is contrary to the public welfare or to the law.
- 4 Members shall protect the confidentiality of information obtained during the course of their professional duties, provided that such protection is not in itself unethical or illegal.
- 5 Members shall ensure that relations with interested parties, other professionals and the general public are based on, and reflect, the highest standards of integrity, professionalism and fairness.
- 6 Members should satisfy themselves as to the extent and content of the professional functions required in any particular circumstances, especially those involving the public safety. Members should not undertake professional obligations that they are not qualified, or do not believe themselves to be competent, to carry out.

Etički kodeks Društva za zaštitu od zračenja Srbije i Crne Gore

Dole navedeni principi namenjeni su održavanju profesionalnog nivoa etike u oblasti zaštite od zračenja. Ukoliko postoji sumnja da je član prekršio ove principe, Društvo ima obavezu da istraži okolnosti i preduzme odgovarajuće mere.

Članovi moraju na najbolji mogući način koristiti svoje umeće, rasuđivanje i očuvati profesionalni integritet.

Članovi ne mogu dozvoliti da konflikt interesa, pritisak nadređenih i eventualni lični interes kompromituje njihovo profesionalno rasuđivanje. Posebno, članovi ne mogu kompromitovati dobra od opšteg interesa i javnu bezbednost na račun interesa poslodavca.

Članovi ne mogu prihvatiti zaposlenje ili konsultativni angažman ukoliko je to u suprotnosti sa dobrom od opšteg interesa ili zakonom.

Članovi moraju očuvati poverljivost informacija do kojih su došli tokom obavljanja svojih profesionalnih dužnosti, ukoliko to nije u suprotnosti sa zakonom ili etikom.

Odnos članova sa zainteresovanim stranama, drugim profesionalcima i javnošću mora biti u skladu sa visokim standardima profesionalizma, profesionalnog integriteta i pravičnosti. Članovi moraju da ispune zahteve u pogledu obima i sadržaja profesionalnih funkcija, posebno u smislu javne bezbednosti. Članovi ne treba da obavljaju profesionalne obaveze za koje nisu kvalifikovani ili za koje se ne smatraju kompetentnim.

- | | | |
|----|--|---|
| 7 | Members should take all reasonable steps to ensure that persons carrying out work done under their supervision or direction are competent, and not under undue pressure from workload or other causes. | Članovi moraju preduzeti sve potrebne korake u smislu da osoba koja obavlja posao pod njihovom supervizijom ili usmerenjem, čini to kompetentno i bez pritiska usled radnog opterećenja ili drugih pritisaka. |
| 8 | Members should strive to improve their own professional knowledge, skill and competence. | Članovi nastoje da unaprede svoje profesionalno znanje, veštine i kompetentnost. |
| 9 | Professional reports, statements, publications or advice produced by members should be based on sound radiation protection principles and science, be accurate to the best of their knowledge and be appropriately attributed. | Profesionalni izveštaji, izjave, publikacije i saveti koje sačinjavaju članovi moraju biti u duhu principa zaštite od zračenja i nauke, moraju biti tačni i potkrepljeni na odgovarajući način. |
| 10 | Members should, whenever practicable and appropriate, correct misleading, sensational and unwarranted statements by others concerning radiation and radiation protection. | Uvek kada je moguće i izvodljivo, članovi moraju korigovati zablude i senzacionalističke i neutemeljene izjave koje su dali drugi, a odnose se na zaštitu od zračenja. |
| 11 | Members should take advantage of opportunities to increase public understanding of radiation protection and of the aims and objectives of IRPA and their own Society. | Članovi moraju doprinositi povećanju opšteg znanja i razumevanja zaštite od zračenja i ciljeva Društva za zaštitu od zračenja Srbije i Crne Gore kao i IRPA. |
